

Alexander Patterson

Senior SAP Consultant | Systems Integrator | Crisis-Fixer

U.S. Citizen | Based in Europe | Available for Relocation

Email: dianoetic@tuta.com

Core Domains

- **SAP SD / MM / LE**, including LE-IDW, WMS, 3PL/4PL
 - Integration across: **FI, CO, PP, PM, PS, CS**
 - S/4HANA migrations, ECC-to-S/4 remediation
 - Data flow logic, pricing resolution, SLT and platform sync
 - SAP Digital Payments, CFIN, CPI
-

Specializations

- **Fix-it roles**: undocumented systems, blueprint gaps, broken logic
 - **Cross-module resolution** under live pressure
 - **Stakeholder trust-builder** in failed delivery contexts
 - Rebuild → Train → Stabilize → Exit clean
-

Industries

Aerospace & Defense | Oil & Gas | Utilities | Retail | Automotive | Chemicals

Notable Accomplishments

- Rebuilt broken SD-MM-PUR integration flow across hybrid Retail rollout
 - Salvaged SLT/CFIN sync in Aerospace during S/4 HANA cutover (zero documentation)
 - Delivered working 3PL/4PL distribution framework from fractured LE-WMS config
 - Executed under partial teams, missing specs, and deadline crises
 - Reversed warehouse valuation split error from PM integration flaw (Utility project)
-

Ongoing Development Work (AI/ML Logic Engine)

Since Jan 2025, leading the design and build of a symbolic reasoning engine:
[Logic Evaluation Engine \(LEE\)](#)

- Applies to SAP diagnostics, pricing logic audits, and configuration validation
- Built for ambiguous input resolution and traceable inference
- Includes CLI and JSON test runners, diagnostic forks, and geometric phase-state logic
